

How to connect to UR_Connected from Android

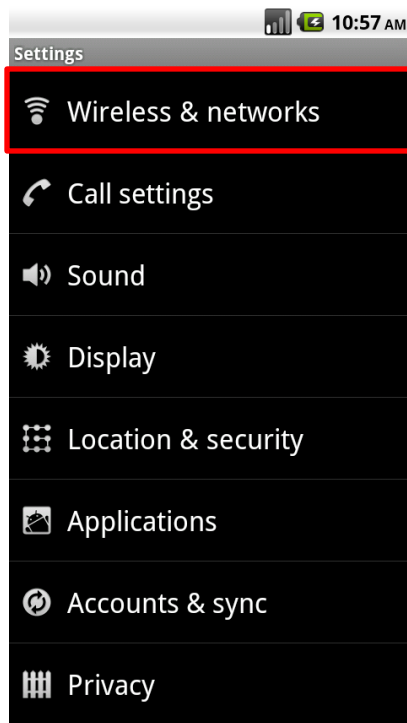

From the Home screen of your Android device, select the **App Drawer**.

From the App Drawer screen, select **Settings**.

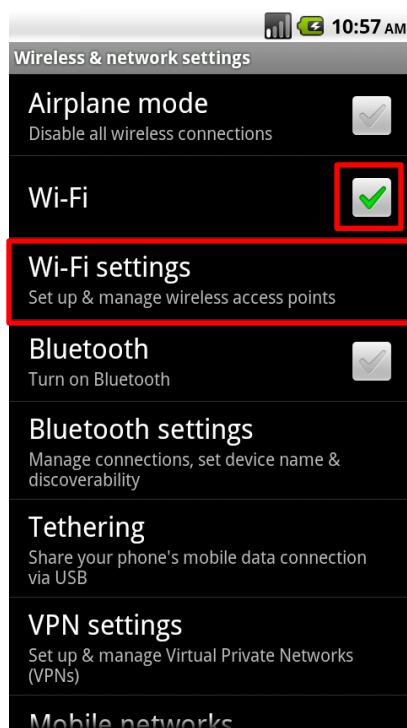

From the Settings screen, select **Wireless & networks**.

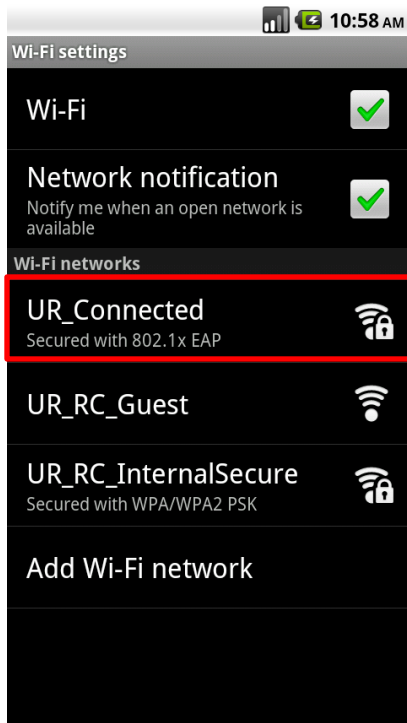

Ensure that Wi-Fi is on.

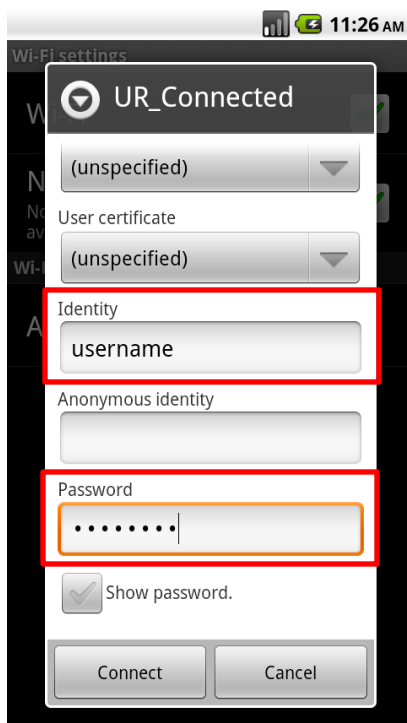

Select **Wi-Fi settings**.

From the list of Networks, select **UR_Connected**.

When prompted for UR_Connected settings/password, leave all the **default settings**. Enter your **Active Directory** account credentials as the **Identity** and **Password** and click **Connect**.

Once the connection is made, you will notice a signal strength meter in the upper right-hand corner and the status of **Connected** under UR_Connected.
