

How to connect to UR_Connected from iOS

From the Home screen of your iOS device, select the **Settings** icon.

From the **Settings** screen, select **Wi-Fi**.

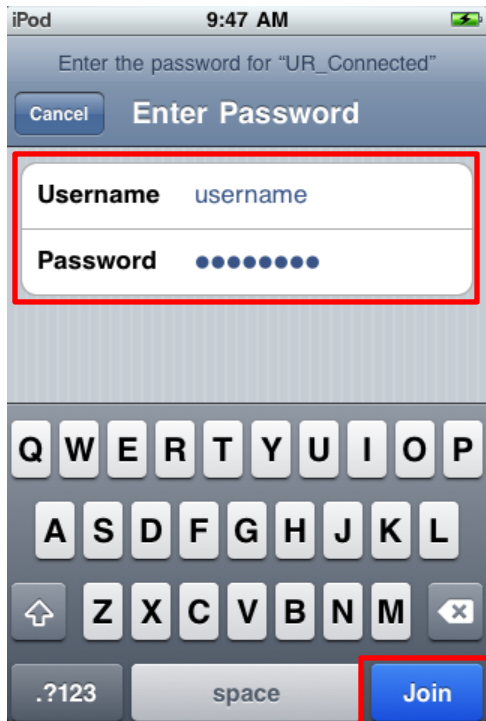

Ensure that the Wi-Fi option is set to **ON**.

From the list of Networks, select **UR_Connected**.

When prompted to login, enter your **Active Directory** account credentials as the **Username** and **Password** and select the **Join** button.

Once the connection is made, you will notice a signal strength meter in the upper left-hand corner and a check-mark next to UR_Connected.
